

108MW, Batang Ai Hydroelectric Plant
Creating value and sustainability 30 years and beyond

2400MW, Bakun Hydroelectric Plant
Largest hydroelectric plant in Malaysia

Sustainable Energy for Sarawak and Beyond

'Sustainable Energy for Sarawak and Beyond' captures our ambition to provide renewable, reliable and affordable power for the growth and prosperity of the state and region.

Hydropower development has enabled Sarawak to enjoy the lowest average unsubsidised tariff in the country and amongst the lowest in ASEAN.

We are developing our natural resources to provide energy for Sarawak and beyond.

About Sarawak Energy

- Sarawak Energy is powered by a multi-disciplinary workforce of 5,000 Sarawakians, serving a population of about 3 million, covering domestic, commercial, industrial and export customers through an extensive transmission and distribution network.
- Our mission is to deliver reliable, sustainable and affordable energy for the people of Sarawak and beyond.
